Packing content

1x KSK-8040U-CR, 1x Manual

Think of a keyboard that goes beyond everyday typing. It is not only convenient to type on, but also acts as a reliable gatekeeper when you use its integrated smart card reader. Smart cards become essential for secure transactions, such as banking and accessing online government services. Its true strength comes to light when you engage its smart card reader, allowing it to become a vigilant protector of your sensitive data.

Technical data

Model	KSK-8040U-CR
Article no.	61081
EAN code	4250078174141
Colour	Black
Material	Plastic
Interface to host computer	USB 1.1
Layout	DE
Switch travel	4 ± 0.5 mm
Pressure point	50 ± 7 g

Key technology

Life expectancy	Membrane technology 10 million keystrokes
Operating temperature	0° to 50°C (10% to 95% RH, 25°C)
LED	Yes
Power supply	USB 1.1, 5 V DC, 100 mA
Operating system	Windows® ME, 2000, XP, Vista, 7, and 10

KEYSONIC **KSK-8040U-CR**

Full-Size keyboard with card reader

Enhanced security with Smart Card integration

Consider a workspace where your keyboard actively contributes to your security. With an integrated smart card reader, your keyboard becomes more than just a tool for typing. It becomes a part of your security strategy, safeguarding your online transactions seamlessly.

High-Speed card reading

Secure and speed up your access with the powerful smart card reader in your keyboard. Capable of processing data at 420 Kbit/s and supporting both T0 and T1 protocols, guaranteeing that each login or transaction is addressed with an exceptional pace and dependability.

Robust build, reliable performance

Tailored for durability. With membrane key switches designed to withstand over 10 million keystrokes, making it highly durable for your high demanding tasks. It's the reliable choice for professionals who need their tools to perform day in, day out, in any environment.
